

Concrete Hopper

Concrete Hoppers - The self-dumping hopper accessory could automatically activate to both unload and release as the bumper release contacts the side of a dumpster. After dumping is done, the hopper could go back to original locked and upright position. This particular piece of machinery likewise comes with a cable which enables operation from the seat of the forklift in order to have the alternative of manually dumping the hopper. There is a locking chain provided so as to lock the hopper to the fork truck. This product is made with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish to be able to maintain durability.
